

Building Better Regions Fund Infrastructure Projects Stream

Fact Sheet

The Infrastructure Projects Stream funds infrastructure projects that will create jobs, drive economic growth and build stronger regional communities into the future.

What funding is available?

The Infrastructure Projects Stream supports projects which involve the construction of new infrastructure, or the upgrade or extension of existing infrastructure that provides economic and social benefits to regional and remote areas. To help regions unlock their tourism potential, up to \$45 million has been earmarked for tourism related infrastructure projects that will help stimulate local economies by investing in the tourism sector.

- The minimum grant amount is \$20,000.
- The maximum grant amount is \$10 million.
- You must complete your project by 31 December 2021.
- For most projects, grant funding will be up to 50 per cent or up to 75 per cent of your eligible project costs. Your location will determine the percentage of grant funding you can receive.
- In exceptional circumstances an exemption to the requirement for a cash contribution may be granted.
- A cash contribution is strongly encouraged for **all projects**, as projects without a cash contribution may not score as highly against the merit criteria.

How does it work?

Grant funding will be awarded through an open competitive process.

Eligible applicants must apply during a funding round and applications are assessed against merit criteria and other eligible applications in the funding round.

Opening and closing dates for each funding round will be published on business.gov.au/BBRF.

If successful in being awarded funding, the project must commence soon after the execution of a grant agreement with the Commonwealth. Projects cannot commence before a grant agreement is executed.
